STUDENT SAFETY ABROAD

Student Safety Abroad

Will you travel outside of Canada for your research? If so, you have some responsibilities to prepare for safe travel including completing UBC's Student Safety Abroad Registry.

- Students travelling for the purpose of study, research, work, volunteer and service learning as part of your academic program may be exposed to certain health and safety risks
- UBC's Student Safety Abroad Program includes a policy that sets out a process for approving student international travel for university activities. The program offers resources and tools that help students stay informed of and manage the risks associated with travelling abroad, while helping the University respond to emergency situations abroad
- Visit [Student Safety Abroad](#) for more information or contact safety.abroad@ubc.ca

RESEARCH ABROAD

Build skills, and network internationally

GOGLOBAL

Self-directed Research Abroad

- Learn new research techniques, access to world-class labs and equipment, build your career, network and make international contacts
- Go Global supports students engaging in self-directed research through an award called the Self-Directed Research Abroad Award
- Open to students in any discipline at any level, students participating in research placements that are a minimum of 4 weeks in length are eligible to receive between \$1,000 - \$2,000 dollars
- Students must have a home and host supervisor and the research placement must take place within a university or an affiliated research institute
- For more information visit [this site](#)

GOGLOBAL
