RESEARCH ETHICS REVIEW AND APPROVAL is required when your research involves people or their data (dead or alive!)

REB APPROVAL IS REQUIRED TO GRADUATE and must be obtained before you start your research.

Completion of the TCPS2 CORE tutorial is required before you start your research.

The home of research ethics at UBC | https://ethics.research.ubc.ca

HOW WE CAN HELP

We provide extensive guidance on research ethics practices and requirements and help you trouble-shoot your specific research questions.

Here are a few links:

- UBC Behavioural Guidance for Resuming Research after COVID-19
- Guidance for working in the RISe platform: Tip sheet for people who have no idea where to start!
- Behavioural Application Form (fillable Word format)
- Guidance Notes on Applications for Behavioural Ethical Review
- Consent Form Guidelines
- Quality Improvement, Quality Assurance, Program Evaluation or Curriculum Development studies requiring ethical review
